

Battery Energy Storage Systems can be used for a wide variety of applications such as powering off-grid communities, marine projects and, on-grid load levelling.

BESS Benefits

- Reduce air pollution from diesel generators.
- Reduce soil wastes from improper disposal of second-life EV batteries.
- Create custom energy solutions for each remote community.
- Assisting Indigenous and non-Indigenous Canadian communities in harnessing and using energy storage systems. This enables energy conservation as well as the opportunity to build stronger, lasting, positive relationships with indigenous communities.

Management Team

Ray Brougham, CEO

Founder of Rainhouse. A true visionary and an innovative leader who possesses a clear and inspiring vision for the future of Rainhouse.

Akshay Kakar, President

17+ years across fund-raising, venture investing, M&A, finance, corporate strategy, and new business incubation in health and clean-tech.
