Rainhouse's Visit to Laflesche

This past month, Rainhouse Manufacturing Canada Ltd.'s President and CEO, Ray Brougham travelled to Quebec to visit our esteemed partners and collaborators Leo Hurtubise and Thawennontie Thomas at Laflesche. Located on traditional Kahnawà:ke lands in Southern Quebec, Laflesche is a proudly Indigenous business owned and operated by a diverse team of experts in their fields.

During the visit, Ray had the privilege of witnessing firsthand Laflesche's exceptional expertise and capabilities in action. From innovative product development to precision mould making and injection moulded plastics, Laflesche's commitment to excellence is truly inspiring.

Rainhouse is proud to announce that Laflesche is our most recent partner and collaborator, marking an exciting expansion of our capabilities and reinforcing our commitment to providing sustainable, Made-in-Canada solutions from coast to coast.

Our partnership with Laflesche enables us to offer a comprehensive suite of manufacturing services tailored to meet your every need. With Laflesche specializing in product development, prototyping, mould making, injection moulded plastics, medical plastics, and meltblown fabrics, and Rainhouse offering precision 5-axis CNC milling, advanced 8-axis CNC turning, state-of-the-art 5-axis CMM capabilities, along with electronic manufacturing services and contract manufacturing services, we have the expertise and technology to bring your projects to life.

Together, Rainhouse and Laflesche share a common commitment to excellence and quality. Our combined capabilities truly set us apart in the industry, ensuring that we can provide top-notch solutions to our customers. As we continue to explore new horizons and forge strong partnerships, we are excited about the possibilities that lie ahead. Thank you for being part of our journey, and we look forward to serving you with excellence every step of the way.
