

**DEPENDABLE
MANUFACTURING**

**CONTROLLED
EXECUTION**

Rainhouse provides contract manufacturing services for customers who require build-to-print parts, assemblies, and short- to mid-volume production delivered on time and to specification.

Rainhouse operates to rigorous quality and compliance standards across all contract manufacturing work. We are **Canadian Controlled Goods registered** and certified to **AS9100D** and **ISO 9001:2015**, with a **Class MA Boiler and Pressure Vessel Licence (License No. LPB0201365)**. We are also an **Approved First-Level Manufacturer under DEF Stan 02-862** for Naval Fasteners, with electronic technicians accredited to **IPC-A-610** and **IPC/WHMA-A-620** standards.

Contract Manufacturing

Our contract manufacturing services are built around CNC machining and electronic manufacturing, supported by flexible capacity and disciplined execution. We support build-to-print parts and assemblies, helping customers move quickly and reliably into production.

Our team focuses on clear requirements, disciplined execution, and reliable delivery to keep projects moving and production on track.

Ideal for customers with defined designs who need dependable execution and on-time delivery.

Rainhouse delivers dependable contract manufacturing execution.
We build parts and assemblies to customer specifications and production timelines.

WHAT SETS US APART

Rainhouse executes contract manufacturing through disciplined build-to-print processes and dependable delivery.

PROVEN SUCCESS

Rainhouse supports customers in aerospace, defence, marine, and advanced manufacturing with reliable contract manufacturing services. From requirements review through final delivery, we manage each build with disciplined execution, consistent quality control, and clear communication. This ensures accurate, repeatable results that keep production on track.

"Special thanks to the Rainhouse team for delivering the KTM brake tips. We are looking forward to Enduro season!"
