

EXPERT  
REPAIRS

SCALABLE  
PRODUCTION

Rainhouse provides electronic manufacturing services (EMS) supporting repair, build, and production requirements across a range of industries.

Rainhouse electronic technicians are accredited to **IPC-A-610** and **IPC/WHMA-A-620** standards, supporting consistent, reliable inspection and assembly of electronic products.

## Electronic Manufacturing Services

- Electronic Repair
- Printed Circuit Board Assembly (Surface-Mount and/or Through-Hole)
- Conformal Coating of Completed Assemblies
- Firmware Loading and Programming
- Function Testing

Rainhouse technicians design, program, test, and inspect inspect electronic assemblies to Class 2 or Class 3 standards, as required.

**Rainhouse specializes in circuit board population and electronic assembly. We deliver precision and reliability for industries with high standards.**

## WHAT SETS US APART

Rainhouse delivers reliable electronic assembly through advanced equipment, skilled technicians, and rigorous quality control.

**Advanced Technology**

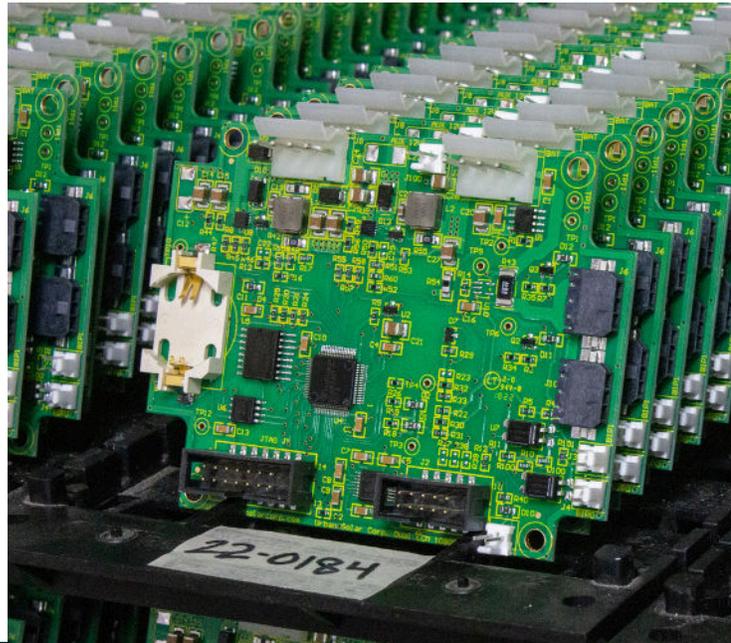

**Skilled Technicians**

**Regulatory Compliance**

## REAL-WORLD APPLICATION

Rainhouse works with Urban Solar to provide custom electronic components for their renewable energy solutions. The project involves assembling and programming complex circuit boards and ensuring seamless integration with Urban Solar's systems. Through our expertise in electronic manufacturing, we deliver high-quality, reliable components on time, contributing to the success of their products.

*"1st class organization. The Rainhouse team always exceeds expectations for customer service and they are a highly trusted partner for our company."*
